

# AI could help millions take control of their energy, saving up to £1,000 per year

POWERVERSE

 **47%**  
UK ENERGY CUSTOMERS

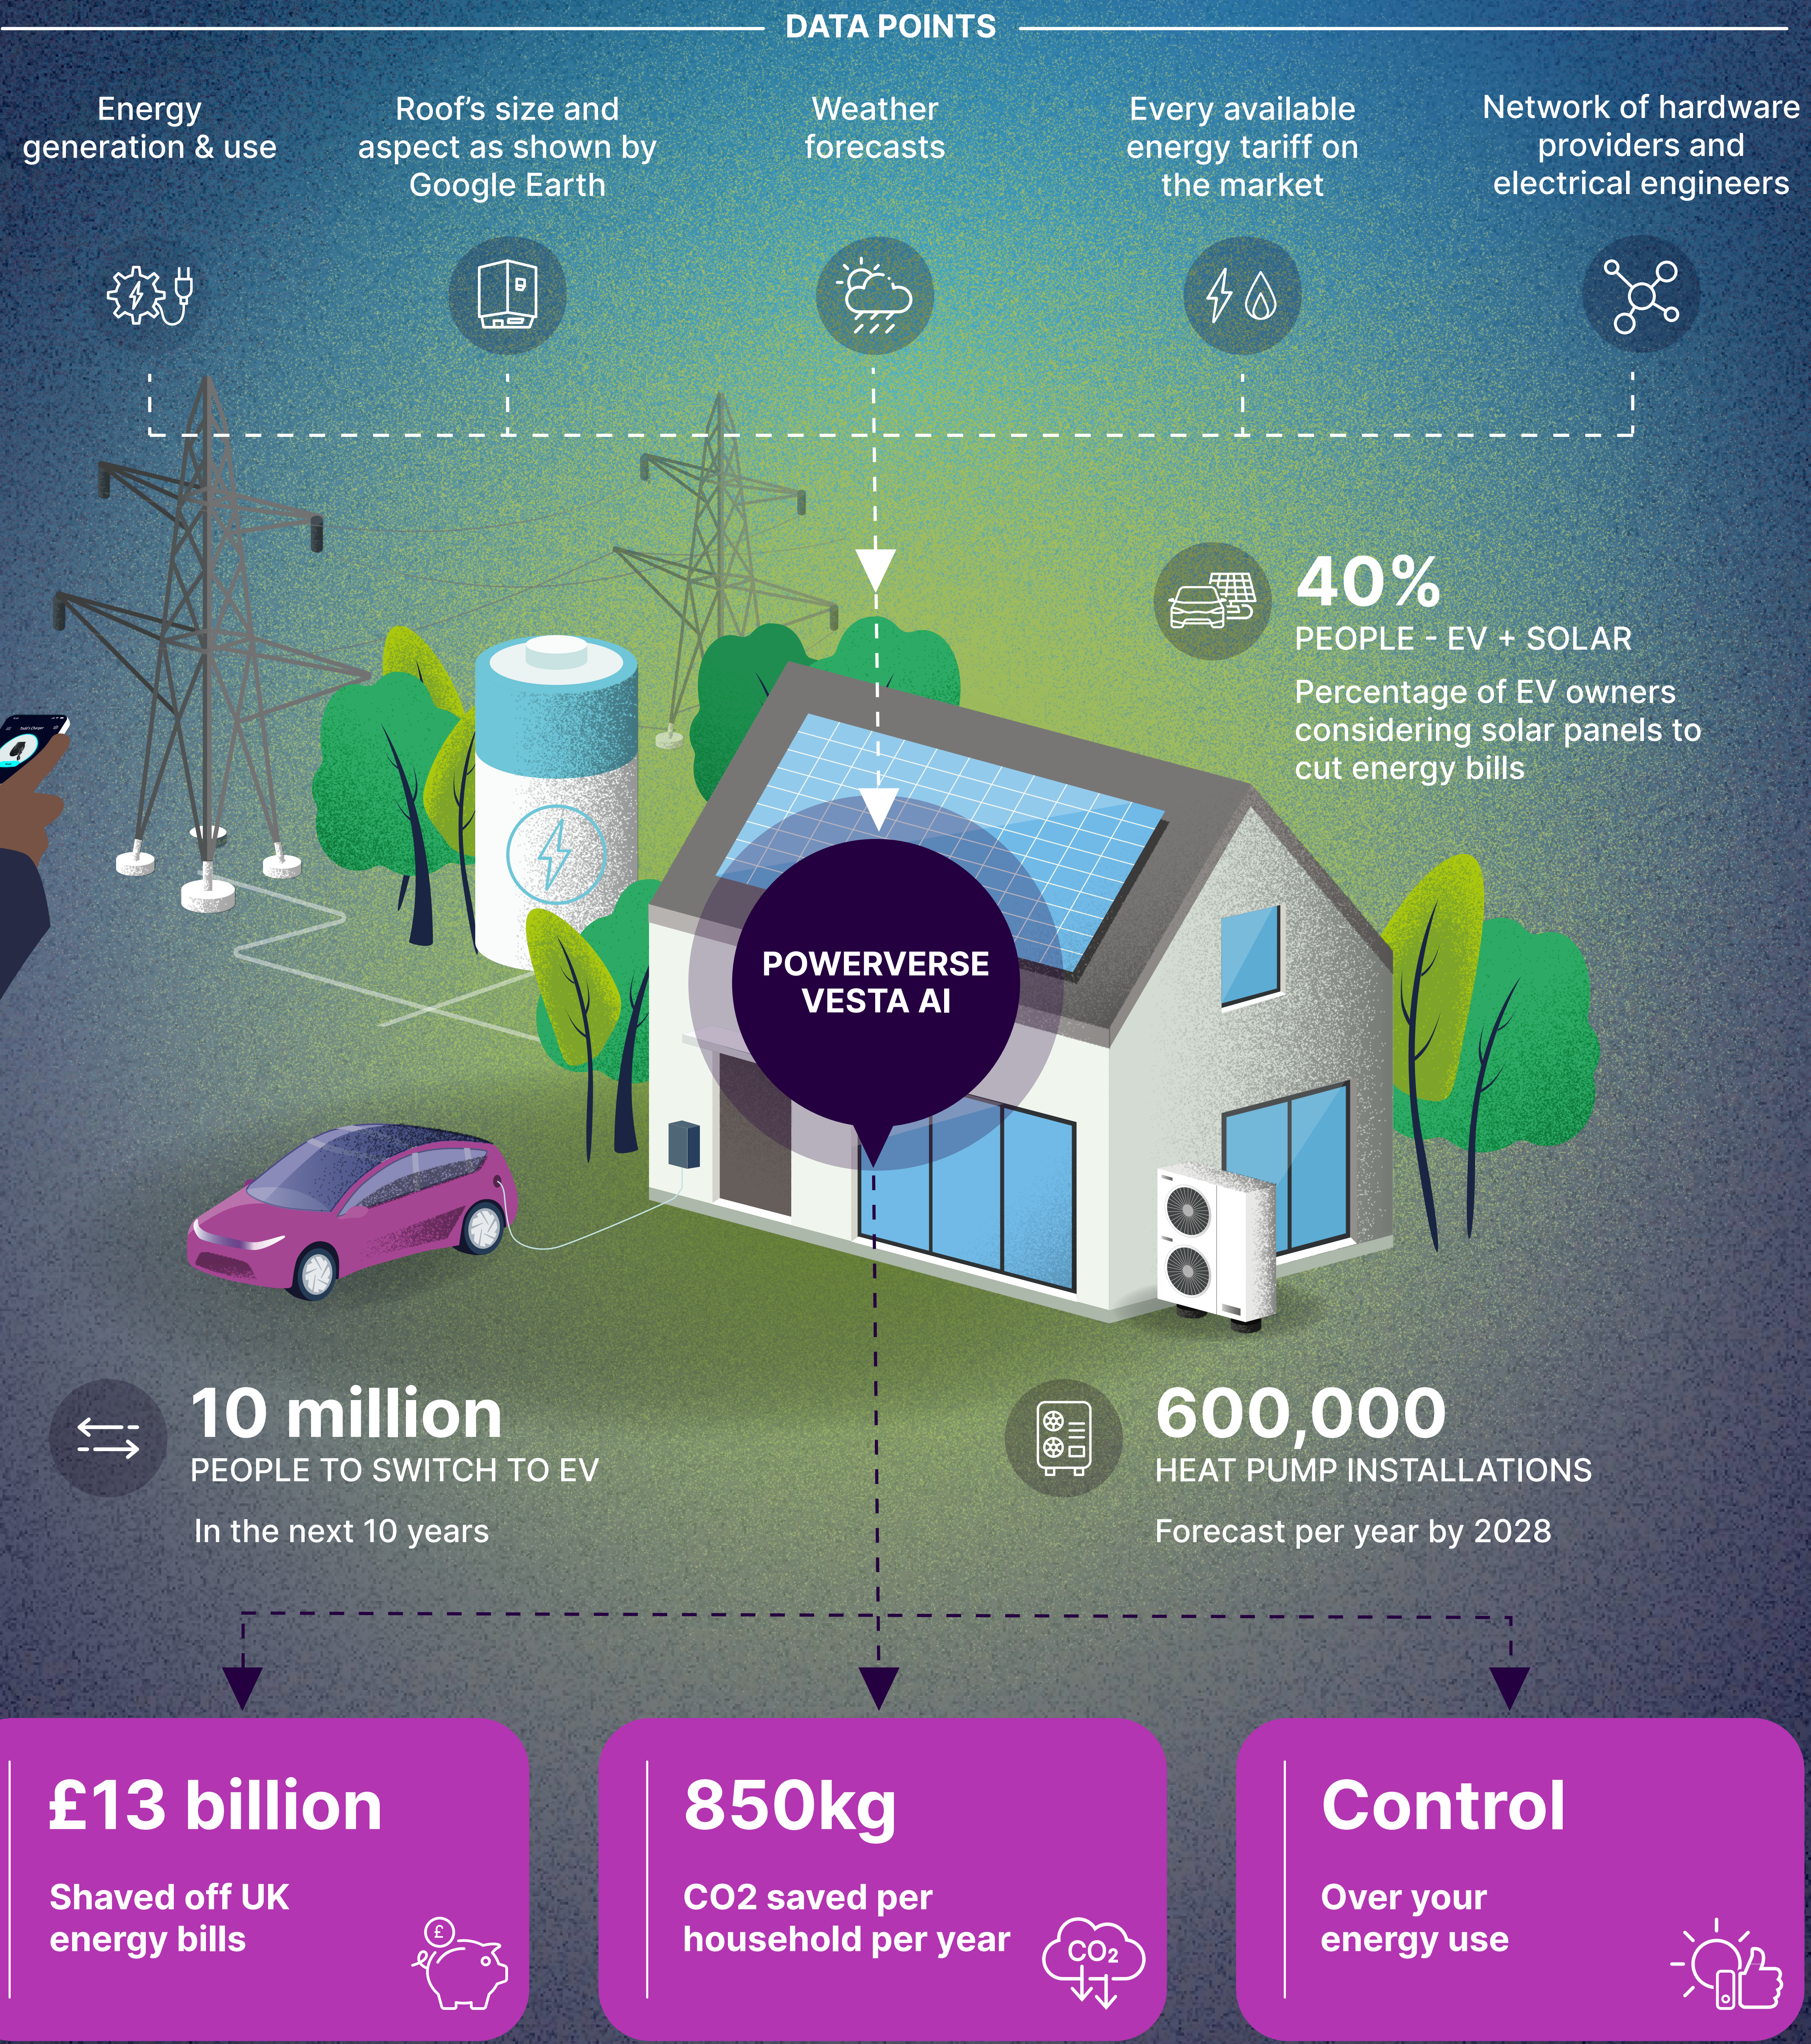

...want to **live more sustainably**, but feel it's too complicated. Helping this group could **shave up to £13 billion off UK energy bills**

**The whole experience has been great - from the start to getting me up and running.**

It's simple to use and the data I get is really interesting, as is the savings from my energy bill. The team are there to offer advice whenever I need it and the app itself makes everything clear and easy. I'm excited to see what comes next!
